EDUCATION

National University of Singapore *July 2024- May 2028*

Bachelor of Engineering

- Major in Computer Engineering
- GPA 4.36
- Relevant Coursework:

  Software Engineering, Algorithms, Electrical Systems, Machine Learning.

WORK EXPERIENCE

MediaTek | Software Engineering Intern *Jun 2026 – Present*

- Migrated an internal Payload CMS application from v2 to v3 and rebuilt LDAP authentication for user verification and synchronisation.
- Developed and debugged backend features involving REST APIs, JWTs, sessions, cookies, and middleware across development and production environments.
- Prototyped cron-job monitoring using Django, Celery, Flower, Healthchecks.io, and Cronitor, and supported deployment workflows with Gitea CI/CD and PM2.

PROJECTS & ACTIVITIES

CanIRent (Orbital 2025)

- Developed a mobile peer-to-peer rental marketplace using React Native (Expo) and Supabase, enabling users to list items, browse listings, and manage owner–renter interactions.
- Implemented core features including image uploads, real-time search, two-column listing layouts, and detailed item pages to support smooth item discovery and transaction flow.
- Improved user experience through clean UI design, efficient state management, and reliable backend integration across iOS devices.

Granted (Hack4Good 2026)

- Designed a swipe-based interface for quick grant triaging and incorporated an AI match score to highlight alignment between grant opportunities and organisational profiles, needs, and priorities.

AWARDS & SCHOLARSHIPS

- NUS Science and Technology Scholarship *July 2024- May 2028*
- SM1 Scholarship *Oct 2019 - Dec 2023*

LEADERSHIP

- Head of Marketing - NUS Raffles Hall Promotion Board
- Vice Captain - Raffles Hall Floorball

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, HTML/CSS, JavaScript,
Libraries/Frameworks: React, NumPy
Tools/Platforms: Supabase, MATLAB, Figma, Payload CMS
Hardware/Embedded: Vivado, Arduino, Verilog
Languages: Chinese (Native), English (Native)
